OUR CASSETTE SYSTEM

FLAT STIPPLE

With a square profile and a smooth, stippled finish, the Flat Stipple is a sleek, contemporary and eye-catching cassette that perfectly matches our links door styles.

STANDARD

Featuring a moulded cassette and a textured woodgrain finish, the Standard cassette is perfectly paired with a Traditional designs.

FLAT GRAINED

The Flat Grained cassette combines a classic woodgrain finish with a modern design. Ideal for Contemporary and Monza II doors.

INOX CASSETTES

Influenced by cutting-edge European design, the Inox is a flat, stainless steel cassette that makes your door stand out from the crowd. Seamlessly designed for the Monza and Links doors.

THE CORE

The Forté door is available with a choice of two high performance cores and locking mechanisms. Our PU foam-filled core is built with maximum thermal efficiency in mind. Or, for added strength and security you have the option to upgrade to our Forté Solid Core for ultimate peace of mind.

STANDARD CORE

Specifically designed for the UK market, our standard PU foam-filled composite core delivers outstanding thermal performance to help prevent heat from escaping your home. It also features an LVL (Laminated Veneer Lumber) subframe for extra strength and rigidity.

EXTREME SOLID CORE UPGRADE

You have the option to upgrade your door to our ultimate Forté Solid Core for added security and thermal efficiency. The Forté Core is made up of a traditional foam core that is fitted with horizontal timber plinths then housed between two slim aluminium sheets and exterior grade plywood for a robust structure, and is wrapped in an extra-resilient 4mm GRP skin. Combined with our Extreme locking system, our core has been tested to meet the standards of the police-recognised 'Secure by Design' standard.

SECURITY

All our Forté doors come with industry leading security features, such as our advanced Ultion Extreme ALPS 3* cylinder. Certain door designs can be upgraded to feature triple glazed units, to add an extra layer of protection.

The Ultion Extreme locking system is the safest on the market. It meets the police-recognised Secured by Design standard. If you want to give your house the best protection available, then you need to choose a Forté composite door.

Approved by locksmiths

BSI

ULTION EXTREME ALPS

ULITON rigorously tests its locks to maintain the strongest 3* cylinder. the Ultion 3 ALPS provides optimal security the moment you remove your key.

ALPS guards against snapping, drilling, and manipulation. As soon as you remove your key, the ALPS system activates, locking a pin to secure the operating cam, providing unmatched protection even if the cylinder is attacked.

TRIPLE GLAZING

As well as further insulating your home and helping to reduce noise transmission from the outside, choosing a triple glazed door cassette will improve home security.

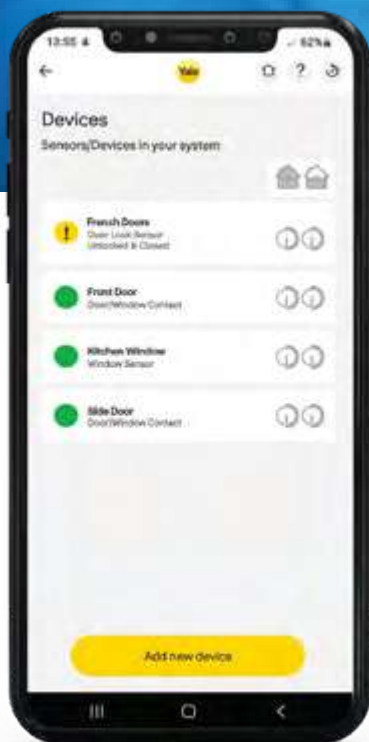

The extra pane of glass makes the unit more difficult to break, providing an extra layer of protection against would-be intruders.

EXTREME[®]

SMART HOME

IS MY HOME SAFE AND SECURE?

Know the answer, at home or away, with Yale SensCheck™ Window and Door Sensors.

Forté Doors come as standard with a Yale SensCheck™ Sensor ready to be activated. Put yourself in control of your home security. Monitor the status of your Forté door from anywhere, or at any time, via the Yale Smart Living Alarm App.

Receive notifications and tamper alerts straight to your smartphone, or chime notifications within your home, when the status of your Forté door changes.

MATCHING FRAME COLOUR

We offer a matching door and door frame on selected colours. Just ask one of our friendly designers for guidance, we will be more than happy to assist.

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this.

Both bold and beautiful, our brand-new range of black hardware consists of contemporary pull bar handles, escutcheons and letterboxes.

Matt Black

LET'S GET GOING

1

SURVEY

Our surveying team will visit your home to take measurements, clarify details and ensure your design is suitable before any work commences. Any changes can be discussed at this stage.

2

FITTING

We'll manage all the various tradespeople involved in your project from start to finish so you can relax in the knowledge the full journey is mapped out for you in advance.

3

AFTERCARE

Once your products have been fully installed, your journey doesn't end there. Our dedicated team of aftercare specialists will look after you and your products for as long as they remain yours.
